logistic professionals

SBS Skiplock

Description

The Skiplock is a high-end mechanical lock with a variety of applications:

- Containers
- Cable, hook containers
- Generators
- Trailers
- ...

The Skiplock has an integrated padlock so it's impossible to lose the padlock.

The Skiplock has a high attack resistance.

You can choose between a standard Duro F320 padlock with Duro cylinder or an Abloy cylinder. If you choose for the Abloy cylinder you have the option of several locking systems.

Both cylinders have anti-drilling protection.
